

**New:
Recycling Program
for worn out
soldering tips**

Weller Info No. 12

Care about the Environment?

In November 2007 Weller established a new Recycling Program for worn out soldering tips. Weller is a committed supporter of actions that help to protect our environment and to conserve its natural resources.

By recycling the copper and iron from used tips so that it can be reused in the manufacture of new products we can make a real contribution towards helping the environment and preserving its natural resources.

Take part in this Recycling Program, save the environment and receive a 50 Euro voucher to be used against your next purchase of Weller tips.

How will it work?

- We want you to collect 1 kilogram of worn out soldering tips, all types from all manufacturers. Collect the old tips in the Weller Tip Recycling Box or any other box.
- Send the box to us (address see below). For every complete kilo of old soldering tips you sent to us you will receive a 50 Euro voucher to be used against your next purchase of Weller tips.

Tip Recycling Box:

- As from January 2008 the Tip Recycling Box can be ordered in Europe directly and free of charge at Cooper Hand Tools, Germany
- Order no.: 005 51 151 00
