**time-limited offer
until 31th July 2009**

WSD 81

Save now with Weller's scrappage incentive scheme. Take up Weller's time limited offer and not only will you save money but you will also increase your productivity. Buy a new Weller soldering station now and we will give you an allowance, in the form of a credit, against your old station - whatever the make.

Change now to a new soldering station from Weller's

WD series

and get a

50 Euro

credit in exchange for your old soldering station - c/w soldering iron and rest. Regardless of the Weller model you choose you will have peace of mind knowing it is part of the latest generation of microprocessor controlled soldering stations. Whether you operate in a manufacturing, repair, service or laboratory environment you will be fully prepared for all your soldering applications, now and in the future.

If you feel you don't need the high level functionality of the WD range and that the standard but excellent functionality of the

WSD 81

is more than enough for your applications. We will support your purchase (subject to the same terms as applicable to a WD station purchase) with a credit to the value of

30 Euro

Need more information on Weller soldering stations then visit www.weller.eu. Need more details of Weller's scrappage scheme then please contact your local Weller dealer or contact Weller directly.
