

Rapid Slide™

The adjustable Rapid Slide™ wrench with integrated slide control in the handle allows fast, easy and accurate jaw adjustment. The maximum jaw opening capacity of the AC6NKWMP is 15/16" (24 mm), of the AC8NKWMP is 1" (25 mm) and of the AC10NKWMP 1,2" (30 mm). The internal debris shield protects the slide mechanism. On the head there are laser-etched SAE / metric markings.
