

Weller® WHS 50

The Universal soldering station

The Weller® WHS 50 soldering station is perfectly designed for a wide variety of soldering tasks. The combination of the LR 21 soldering iron with large range of LT soldering tips makes this a versable station capable of fine soldering jobs as well as heavier duty tasks. The operation temperature is fully adjustable between 150 deg C and 450 deg C. Professional performance for the semi professional and serious hobbyist.

- Electronically controlled analogue soldering station
- Equipotential bonding (normal state hard grounded)
- Automatic tool recognition
- Large LT soldering tip and accessories programm available
- Temperatur range 150 deg C to 450 deg C
- Protection Class 1
- Dimensions: 166 x 115 x 101 mm (L x W x H)
